

CHEER SQUAD

MUSIC EQUIPMENT (DRUM) GUIDELINES

- The use of music equipment (drum), approved by the club and AFL, will be trialled during the 2025 season.
- The drum will only be used at home games throughout the 2025 season.
- At the end of the season, the club will review the trial and decide whether to submit an application to the AFL for the 2026 season.
- The drum will be used strictly according to the venue's guidelines.
- It will only be played in the designated Cheer Squad Bay and only after a club goal is scored, up until the commencement of play.
- Any use of the drum outside these designated times will result in intervention by security, confiscation of the drum, and the withdrawal of approval for the remainder of the AFL & AFLW Premiership Season.
- The drum will be positioned centrally within the bay for use.
- The responsibility for using the drum is shared by all members of the Cheer Squad, not assigned to any one individual.
- The drum must not be used to incite negative behaviour, including derogatory chanting or abuse.
